

FOR K-5 Personal Trading Card

Create a personal trading card highlighting your best qualities!

Get ready by finding... **PAPER, SCISSORS, COLORED PENCILS**

01 Using your scissors

Cut a piece of paper to about the size of a credit card. *(for younger children a larger size is recommended)*

02 Draw a box

on the top half of your card. Inside the box draw an image of yourself in action! This should be something you like to do. It could be playing a sport or doing a hobby you like. Make sure to add a background.

03 Who is the card about?

Write your name and birthday under the box with your drawing.

04 Add your stats + skills

under your birthday! This can include descriptions like "highest scorer", "good friend", "fastest eater" or anything you are proud of about yourself.

06 Make more —

for your friends and family or make some of your friends and family!

05 Flip the card over

and design a colorful back for your trading card.

Do you love to write and learn about other people?

Did you know that **Biographers** are authors who tell the story of a person's life? They get to use their creativity to write about all the most interesting things about that person! This includes describing their personality, events in their life, things they accomplished, and the people in their lives.
