# TAKE UP SPACE

USING SHAPES TO MAKE COOL DESIGNS!

Get ready by finding your....

## LARGE PAPER + DRAWING MATERIALS

01

### Find a cool shape!

Look around the room, what different shaped objects do you see? A circle bowl, square picture frame? Grab an object with a cool shape you can trace!

02

### Trace your shape + create designs!

Trace the object you found over and over again in different areas of your sheet of paper! Use your drawing materials to create different designs. Fill in your shapes and try to use up every corner of the page!

*Did you know that there are lots of creative jobs where artists create their own designs?*

**Show us what you made!**  
**Post and tag your work on Instagram!**

Sam Page

**Graphic Designers** and **Illustrators** think about how to fill space on a page with shapes, words, letters and images. Think of a juice box, someone had to design that. Things like board games, posters, candy wrappers and book covers, and a bunch of other cool stuff — they get to choose how all of those words, drawings and images will look. Design is a fun way to help people communicate with each other. Graphic design is everywhere you look and nearly everything has some design on it!
